General Description

The TX75XXX is ultra-low quiescent current regulator features low dropout voltage and low current in the standby mode. With less than 2.5µA quiescent current at no load, the TX75XXX is ideally suited for standby micro-control-unit systems, especially for always-on applications like E-meters, fire alarms, smoke detectors and other battery-operated systems. The TX75XXX retains all of the features that are common to low dropout regulators including a low dropout

PMOS pass device, short circuit protection, and thermal shutdown.

The TX75XXX has 60V maximum operating voltage limit, and -40°C to 125°C operating temperature range, and ±2% output voltage tolerance over the entire output current, input voltage, and temperature range.

The TX75XXX regulators are available in standard SOT23-3, SOT89 and SOT223 packages.
